Solicitor Henninger stated that the purpose of this evening's Public Hearing is to receive public comment on a proposed ordinance, Ordinance No. 570, which would amend the Lower Swatara Code of Ordinances No. 448 as amended and supplemented, Chapter 27, Zoning, pertinent to the location, placement, construction and maintenance of Wireless Telecommunications Towers (cell towers) and Wireless Telecommunication Antennas, which specifically in this proposed ordinance are known as "Distributed Antenna Systems". These are mini-cell towers which can be placed on telephone poles, public right of ways, etc. The purpose of this ordinance is to be able to control those as much as possible in light of the Federal Telecommunications Act, and to be able to regulate as much as possible the placement of such facilities. The ordinance will also update the cell tower provisions in accordance with changes in the Telecommunications Act and changes in case law relative thereto.

Solicitor Henninger noted that the Public Hearing for the proposed ordinance had been properly advertised in the Press and Journal, and is ready for public comment.

The floor was opened for public comments.

Solicitor Henninger stated that formal action on the proposed Ordinance will appear on the agenda of the workshop meeting this evening.
